

Introduction

SealXpert® SP20 Cleaner and Degreaser is heavy-duty evaporating cleaner and degreaser for use on electric motors and other heavy-duty electrical and mechanical equipment. It minimises downtime by cleaning low-voltage motors and equipment while in operation.

Features

- Rapid and complete evaporation
- Quickly penetrates into hard-to-reach areas
- Ideal for preparing surfaces for further treatment
- Ideal for cleaning water and contaminants from flood damaged equipment
- Chemically stable, inert
- Non-conductive
- Non-corrosive
- Contains no lubricants, silicones, oils

Typical Applications

- Electric motors
- Generator and transformer windings
- Marine and industrial engines
- Surfaces prior to anti-corrosive coating
- Mechanical and electrical parts
- Cables and wires
- Industrial and laboratory equipment
- Antenna insulators
- Coils
- Fuse holders
- Elevators and escalators
- Textile machines
- High voltage switch gear
- Alarms
- Blowers
- Air conditioners
- Bus bars
- Circuit breakers
- Controls
- Pumps
- Welders
- Compressors
- Surfaces prior to anti-corrosion coatings
- Fork lifts
- Pre-assembly degreaser of all mechanical and electrical components
- Ideal degreaser of all equipment in preparation for painting
- Ideal for cleaning water and contaminants from flood damaged equipment
- For removal for wire pulling compounds, anti-oxidation compounds and semi-conductive particles before splicing and termination of high-voltage cables

Typical Properties

Propellant (Aerosol):	Hydrocarbon
Appearance:	Clear liquid
Odour:	Mild ethereal
Specific gravity:	1.4
Distillation range:	73°C (164°F)
K B value:	130
Dielectric strength:	20,000 V/cm
Dielectric constant:	3.4

Direction for Use

- Test on small area before using. May be harmful to some plastics
- Remove access plates to expose equipment interior
- For heavy deposits, remove by scraping
- Apply liberally by spraying and allowing to run off
- Air dry or dry with soft wiper
- If necessary, repeat application

Safety and Handling Consideration

Do not puncture, incinerate or store above 50°C (120°F). Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

Use only in well ventilated area. Avoid continuous breathing of vapour and spray mist. Avoid contact with skin and eyes. If ventilation is not adequate, respiratory protection should be worn.

In case of contact with eyes or skin, rinse with clean water immediately; if symptom goes on, call a physical attention.

Keep away from children.

More details, please refer to MSDS of this product

Recommended Storage:

Stored in a cool and dry location in unopened containers at 8~28°C. Keep away from flame or heat sources.

Shelf life is 36 months
